

ZOSI GROUP

(Pty) Ltd

SUPPLY CHAIN EXCELLENCE

www.zosi.co.za

About Zosi Group Pty (Ltd)

Zosi Group (Pty) Ltd began life in 2005 as Zosi Commercial Trading cc, as a supplier of general goods and services. The owners had a vision that this company would one day involve itself in the broader logistics and supply chain industry. We are a 100 percent black owned, staffed and managed supply chain and logistics company operating across the SADC. We provide a service that is on time, all the time. We are your strategic partner in supply chain and logistics.

Corporate Overview

With humble beginnings as a subcontractor, we have grown to what to date is an organization on an impressive growth path with an impressive client list. We have access to large and secure warehouse space to accommodate clients' cargo. We operate a fleet of Scania Mechanical Horses with Flat-deck and Tautliner Tri-Axle as well as Super-Link trailers. We have six Rigid Body Trucks for both local and cross-border collections and deliveries. As well as being fully insured against loss while travelling, our trucks are all fitted with state-of-the-art vehicle satellite tracking and cameras, which we monitor constantly for safety, security and risk management.

We service a number of high-profile clients under SLA agreements. We are extremely proud of being in a position to service blue chip clients through our contracts and SLA agreements.

We carry high value products including but not limited to Polypropylene, Fertilizer, Tobacco, Cotton, Agricultural Produce, Animal Feeds, Pharmaceuticals, Steel and Mining Equipment.

Vehicle Tracking

Our fleet is secured with safety systems to ensure that cargo arrives at the client without any loss encountered. We have Scania Tracking System, an Onboard Camera System that is monitored offsite, as well as Tracker SA.

Safety

We are a proudly SA SQAS approved Supply Chain and Logistics Service Provider since 2014 differentiates us from our peers. We aim to be a leader in the provision of quality supply chain and logistics services across the SADC region that meet each of our clients' specific needs.

Mission

At Zosi Group (Pty) Ltd, our mission is to attract and retain customers by providing competitive and fit for purpose supply chain and logistics solutions. We aim to foster a culture of profitability alongside service, discipline, safety, compliance and trust.

Vision

We see ourselves as a company that contributes to regional competitiveness through our impeccable offering in supply chain and logistics, and growing a sustainable business that will participate effectively in the economic growth of the SADC countries.

ZOSI GROUP

Values

Our success is built on an ability to build mutually beneficial sustainable relationship with our clients.

We pride ourselves on impeccable procurement, management of time and management of people to satisfy our client's requirements.

We value an open and approachable relationship with our staff, whom we regard as family.

We nurture a Safety-First culture in the work environment.

We aim to deliver an outstanding on time service, all the time.

Services

We are specialists in the sourcing, from production and manufacturing, of all kinds of commodities, warehousing management and clearing, transportation of Full Loads, Containerized Loads, Palletized Loads and Consolidated Loads across a broad range of industries in the SADC region to get your company's cargo to its destination safely and on time.

We have established partnerships with warehousing companies and have well established relationships with clearing agents in all borders across the SADC countries.

24-hour vehicle tracking gives you as the client full control and visibility of your load and management of your cargo at all times.

Our fleet is fitted with in cab and surround camera systems for risk mitigation, loss prevention and to monitor and moderate driver behavior. We also have the Scania Fleet Management system for fuel management, costing and fleet maintenance schedule.

At Zosi Group (Pty) Ltd, we ensure that we perform to the highest standard of safety and comply with applicable regulations in our everyday business.

Our Safety-First culture puts us in a position where management, drivers and maintenance crew are all aware of their responsibility to maintain our equipment and vehicles to the highest safety standards possible.

Where supply chain and logistics is concerned, we offer a quality and seamless service of the highest standard possible.
